

## Regarding Covid-19 vaccination for children(aged 5-11)

- Children aged 5-11 can get vaccinated, too.  
But It's not mandatory.  
(You can decide to get vaccinated or not.)  
Children and their guardians should learn about the advantage and disadvantage of COVID-19 vaccine before getting vaccinated.
- If you want to get vaccinated, please make a reservation after receiving the vaccination voucher.
- A child who turns 12years old on the day of vaccination needs a new vaccination voucher. Please call to Yao Covid-19 vaccine call center. (Tel 0570-008-633)

◎ A child eligible for the vaccination: Aged 5-11 and having certificate of residence in Yao city.

◎The total number of injection: 2

※Children get their second dose 3week after children first dose.

◎vaccination fee: free

◎ vaccine: The Pfizer vaccine for children

◎Place : Covid-19 vaccination hospital for children.

(Children can't get vaccinated at City inoculation facilities)

There is a list of hospitals on the page below.

Please make a reservation directly with the hospital.

©What to bring on the day:a vaccination voucher, Prevaccination Screening Questionnaire, identification(mother and child health handbook, health insurance card, my number card and so on.)

Please be sure to go with a gardian, and Prevaccination Screening Questionnaire requires signature of gardian.
